## HOW ANDREW JOHNSON BECAME PRESIDENT

### For Years the Grass Has Covered His Almost Forgotten Grave at Greenville, Tenn.

One of the most dramatic careers in American history was recalled to memory by the formal dedication in Greenville, Tenn., on Monday last of the national burial ground which bears the name of the seventeenth President of the United States—Andrew Johnson.

For thirty-five years the grass has covered his almost forgotten grave in this quiet little village of the dead.

Around him on every side loom the peaks of the Blue Ridge. But not less rugged were the angular outlines of his checkered life. For there was much in his character which suggested an intimate resemblance to his native mountains.

Fate was both kind and cruel to this extraordinary man. At times she stroked him with a glove of velvet. Again, she scourged him with a lash of scorpions. She lifted him to the very highest round of the ladder of fortune—giving him the office which was filled by the martyred Lincoln; but she made him shoulder his cross of anguish and walk the "Via Dolorosa."

It is doubtful if there ever lived a man who was more signally honored or more bitterly reveled than Andrew Johnson.

In the long line of Presidents reaching from Washington to Taft, he is the solitary exception among the occupants of the Federal white house to be arraigned before the bar of the Senate on an issue of impeachment.

By a single vote he escaped the brand of conviction.

But we must bear in mind the violent passions and the stubborn misunderstandings which vexed the turbulent era of reconstruction.

There was too much fever heat in the blood to admit of calm pulse-beats.

Luckily the deciding ballot was cast in judicial moderation; and, without being blind to the faults of the defendant, has ratified and adorned the verdict.

It is wholly impossible to contemplate the career of this extraordinary man without being impressed with the opportunities for distinction which are offered by our free institutions to the very humblest youth in the land.

Born of obscure parentage and bred to manual labor, this man of the people began life in the role of a village tailor. He was ignorant of the common rudiments of an English education. But he chose the right woman to be his helpmeet; and thanks to

this gentle daughter of the Tennessee mountains, who guided his awkward pen, and taught him to unlock the treasures of his mother tongue, he was soon able to discard the local vernacular.

Moreover, his ambition was fired. He gained admission to the bar; and from law he turned to politics. He became an orator of national reputation and an oracle of consummate wisdom. His fellow-citizens were only too proud to honor the man who had overcome such handicaps; and sustaining himself with splendid credit in the State Legislature, he was sent for eight years to Congress.

On account of the sharp issues of this period he naturally developed some opposition; and, knowing how strongly he was intrenched in his own district, an effort was made to defeat him by gerrymandering the State. But he boldly met the challenge by successfully making the race for Governor of Tennessee; and later he was sent to the Senate of the United States.

The gathering war clouds found him an emphatic unionist. Because of his stubborn resistance to secession and his sentiment of his State upon the issues refused to acquiesce in the majority of the conflict, he was appointed by Mr. Lincoln in 1862 War Governor of Tennessee. Events tended to make him the most conspicuous figure upon the Southern horizon in Republican politics; and when the party met in national convocation in 1864 he received the nomination for Vice-President. It was an effort to weaken the arm of the Confederacy and to win converts from the dismayed camp of Dixie following the disaster at Gettysburg.

Then rang the assassin's shot in Ford's Theatre.

Abraham Lincoln, by the infamous act of a madman, was removed from the public stage and Andrew Johnson was sworn into office by Chief Justice Chase.

The tailor of Greenville had become the President of the United States.

But he was destined to pay an exorbitant price for the Presidential honors. He was no longer popular at the South because of his avowed determination "to make treason odious." Yet it was the moderation of his policy toward the South which aroused the enmity of his party in Congress, which resulted in the atrocious military measure of reconstruction and which finally culminated in

## ARBITRATION OF RAILROAD STRIKES

### WORK OF BOARD OF MEDIATION IS COMMENDED.

#### Chairman Knapp Says That Better Relations Result Between Employees and Employer.

WASHINGTON, June 14.—Particular attention has been directed recently to the work of the board of mediation, created by the co-called Erdman act, by the strike of the firemen on the Georgia Railroad. Under the law, either party to a controversy on a railway doing an interstate business, may appeal to the board of mediation with the idea of compromising the differences.

In discussing the work of the board of mediation, Chairman Knapp said yesterday:

"So far as I can observe the results of the settlement with which I have been concerned have been the restoration of even more friendly feelings than previously existed. It has happened, when a settlement has been reached, that all unkind feelings have disappeared, with the result that the relations of employer and employee have been more friendly, more self-respectful and more considerate of each other than they were before."

"This contact with certain phases of the labor question have led me to believe in the economic value and the public benefit of a high and advancing standard of compensation to railway employees. I do not hesitate to voice my desire to see our railroads make earnings which will permit them to pay liberal wages to an adequate number of competent men, not only because I believe they deserve it, but because of the influential scale of wages in public service upon the wages paid in every grade of private employment, and because that policy, I firmly believe, will promote the prosperity and happiness of all the people of our country."

an effort to disgrace him by process of impeachment.

The position which Andrew Johnson took was that since secession was never legally recognized, the seceding States were already within the Union; but Congress was bent upon declaring them to be without the Union, until they had ratified the constitutional amendments and swallowed the unwelcome pill of negro suffrage.

In the light of subsequent developments the position of Andrew Johnson has been vindicated.

When he left the Presidential chair in 1869 he was in temporary political eclipse. Twice he was defeated for public office—first for Governor of Tennessee and afterwards for United States Senator. At last he was honored with the toga. But his health was broken; his brow was furrowed; his head was bent. Andrew Johnson was no longer the same man; and in 1875 the sod of Tennessee pressed the nerveless bosom of the old statesman.

Then came the years of forgetfulness.

But on Monday of last week ten thousand people flocked into Greenville to do him honor. Over all the country roads the wagons began at day break to race into the little mountain town. The North was there. The South was there. And not a word of bitterness was spoken. Andrew Johnson was upon the heights again!—Atlanta Georgian.

## WINDSOR ITEMS.

WINDSOR, June 14.—Green corn, watermelons and tomatoes seem to be in the ascendancy just now.

The recent showers have benefited all vegetation, and the crops are giving promise of a good harvest for this section. Corn and cotton are looking especially promising. If we only

## THE STATE UNIVERSITY TO HAVE LAW SCHOOL

### Eighty Thousand Dollars for New Buildings for Experimental Station and Science Department.

TALLAHASSEE, June 14.—The appropriation bill which has been signed by the Governor contains a clause appropriating money for the higher institutions of learning. This clause was carefully considered by the Governor in the presence of a joint meeting of the boards of education and control.

It was only after an exhaustive examination into the needs of these institutions, during which Mr. Bryan, of the Board of Control, was called upon to answer innumerable questions, that the Governor, in the presence of the two boards, signed this bill.

## Law School.

Mr. Bryan asked for, and, after some discussion, received for the Board of Control authority from the Board of Education to establish a law school at the State University. This is not to be done immediately, however, but plans are to be perfected so as to be put into effect as soon as practicable. As the study of law is considered a special course, the

student in this department will be required to pay a small yearly fee.

The establishment of a law department in the University has been a pet idea of Mr. Bryan's for some time, and he was manifestly pleased that his appeal to the Board of Education met with such ready response.

Meeting with the boards were: Dr. Murphree, president of the University; Dr. Edward Conradi, president of the Woman's College, and Prof. Rolfs, director of the Experiment Station at the University.

Later the Board of Commissioners of State Institutions met in joint session with the Board of Control, and in the distribution they made of the amounts appropriated for the use of the University eighty thousand dollars was voted to the erection of a new building for the use of the Experimental Station, and one for the department of science.

Mr. Bryan asked this expenditure as being very urgent, the need for these buildings being even greater than the need of a new academic building for the Woman's College.

had better roads we could get more of our surplus crops to the markets. This calls to mind that there were a lot of promises made last year about improving roads in the east end of the county, but so far the roads are about the same as they were, only a little worse. The East End generally is feeling as though there is something due them in the way of better roads. Especially a little more hard-surfaced roads.

Miss Hall of Orange Heights has been spending some time here as the guest of Miss Clara Thomas.

R. R. Rosborough of Jacksonville passed through here and made a short visit recently.

On the 2nd inst. Mr. and Mrs. E. R. Zetrouer were made happy by the arrival of a little daughter.

O. R. Green cut the best bee tree so far reported this year. The tree was a large slash pine growing on the edge of Gum Root swamp and it contained about 15 gallons of honey. The cavity in the tree was in places fourteen inches in diameter and six or eight feet long and was completely full of fine comb honey. There have been several bee trees cut near here

recently, but none of the rest held much over a gallon of honey.

Anyone in this neighborhood who has beef cattle for sale should see Wm. Adams between now and the morning of the 18th, as he is getting up a herd of about 200 head to send to Jacksonville.

## High School Needs Two Pianos.

The High School needs two more pianos very badly. One more is an absolute necessity. With a little more interest manifested by its friends, the school will win the Burkheim piano. The piano will be an indirect benefit to everybody if the school wins it. If the school loses the piano, the public will be the loser, for a piano must then be purchased at the expense of the public. If you wish the school to win, bestir yourself. Cast your votes for the school and request that your friends do likewise.

## Of Special Interest to Dealers in Stock Feed

TALLAHASSEE, June 14.—As there seems to be some misunderstanding concerning the application of our stock feed law as it applies to "mixed feeds," when the mixture is composed of different grain, the following ruling of this department on "mixed grain" is hereby given:

## Ruling on Mixed Grain.

Attention is called to Section 11, Chapter 5452, Laws of Florida, Acts of 1905, and Chapter 5661, Acts of 1907, as amended, relating to "Mixed Feed," which includes all mixed grain, and also to notice of Judgment No. 58, United States District Court, Northern Division, Eastern District of Tennessee, "Adulteration and Misbranding of Oats" (mixed with barley.)

The following regulation, under Section 15, Chapter 5452, Laws of

Florida, is hereby reaffirmed and established:

All mixed grain consisting of two or more kinds of grain shall be tagged "Mixed Feed" or "Mixed Grain," and shall bear the chemical analysis as provided in Section 3, Chapter 5452. Shall also state the ingredients from which it is compounded, with the proportions by weight of the various grains therein. No double or scale grades of per cents will be allowed, such as 10 to 40, 20 to 50, etc. The minimum amount of the base or principal ingredient of the feed and the maximum per cent or amount of the mixture added must be definitely stated. In the case of oats and barley there must not be a less percentage of oats nor more barley than is specifically named on the guarantee tags.

B. E. McLIN,  
Commissioner of Agriculture.

## Cotton Crop Acreage Less Than Last Year

NEW ORLEANS, June 14.—The Times-Democrat, in publishing its first report on the cotton crop of 1909, will tomorrow summarize conditions as follows:

"There has been a moderate decrease in acreage, probably about 5 per cent."

"Taking the belt as a whole, the condition of the plant leaves much to be desired."

"The supply of labor is fairly adequate, as a rule, though there is a good deal of complaint in some sections."

Among the reports from the cotton belt of unusual feature is the following from Austin, Texas:

"That Central Texas is without a cotton crop, with half of the month of June gone by, may be a state of affairs difficult to imagine, yet such is the case and to the farmers of this section it is a sad reality."

"This is generally admitted throughout the State and most of the Southwest. The State Department of Agriculture in this city confirms this statement. In fact, there is so little cotton in the ground that a comparison between the acreage of this year and that of last is next to impossible. About the only cotton well grown at the present time has been raised almost exclusively by the 'hot house' method."

## COAST LINE WRECK DELAYS ALL TRAINS

NORTH BOUND TRAIN RUN VIA  
BURNETT'S LAKE MONDAY.

Crews of Trains 39 and 40 Transfer  
at Scene of Wreck Near  
Kendrick Station.

A wreck of considerable importance occurred on the Coast Line early Monday morning near Kendrick, which completely demoralized all travel from the south for the entire day.

The regular local freight from Jacksonville south was en route to Ocala at the time of the accident, and this was the train that was put in the ditch, or eleven cars of it, leaving only the caboose on the rails when the engineer managed to get the engine stopped.

Seven cars, all loaded with freight for Ocala, were ditched, among the number being two carloads of coal and one box car loaded with ice, while the others contained provisions and groceries.

The early passenger train, which is known as the Jacksonville business man's special, was run around by Juliette and Burnett's Lake, while both trains, 39 and 40, were run up to the scene and the passengers, express and mail transferred.

Before the engineer was aware of the accident he had run a considerable distance and torn up the track for about 400 yards and, it was not until the cars began turning over that he became aware of the trouble.

All of yesterday the wrecking crew, together with officials of the company, were present and expected to have the right-of-way cleared sometime during last night.

Fortunately no one was injured in the accident, and outside of the heavy loss to the railway company there was no damage.

## NEWS OF CITY AND COUNTY CONDENSED

W. W. Hampton, Jr., has returned from a short professional visit to Ocala.

C. W. Wells of Alachua was shaking hands with his many friends here yesterday.

B. F. Waldron of Newberry was shaking hands with his many Gainesville friends yesterday.

Chas. Pinkson, special agent of the Coast Line, returned yesterday from a short business trip to Newberry.

Cecil and Miss Belle McLeod have returned from a short visit of a few days with their father on the farm at Reddick.

T. L. Blanton of Newberry is among the visitors to Gainesville, having been summoned here on some business matters.

## DICKINSON HAS FINE COLLECTION ON TAXES

MORE CASH HAS BEEN RECEIVED  
THAN EVER BEFORE BY HIM.

Is Now Through With His Labors and  
Turns Copy Over to the  
Printers for Publication.

Tax Collector Dickinson has completed his labors for the 1908 taxes and turned the copy over to the printer for publication of the delinquent list.

He states that he has received more cash this year than ever before in the history of his office, which is evidence that the people have been prompt in the payment of their taxes.

"While the list will be some larger," stated Mr. Dickinson, "it is not because the people have not paid, but largely due to parties who want the lands advertised that they may get a tax deed to go along with their other papers."

During the first part of the year, when the books first opened, a large number of people took advantage of the discount and either called at the office and paid up their taxes, or mailed the money, and this has been of great assistance to him.

There have also been some additions since the last books were made up, and it will also have the effect of increasing the advertising list some.

### LOCHLOOSA NOTES.

LOCHLOOSA, June 14.—Mrs. C. H. Shaw and children returned to their home in Ocala Friday after a pleasant stay with relatives here.

Mrs. H. V. Cassels of Island Grove spent a few days in town with relatives last week.

W. T. Ergle has received a part of his supply of tomato cans preparatory to canning his tomato crop after the prices have declined.

N. J. Jackson returned home Friday from Dade City, where he has been attending the normal school.

Mrs. F. E. Yeant returned to her home at Port Inglis Thursday after a short but pleasant stay with relatives here.

W. R. Brice, a progressive merchant of Island Grove, was in town Thursday.

The crops in this section are badly in need of rain.

T. E. Bates has erected a nice barber shop and cold drink stand on the corner of Lake avenue, next door to Colman's dry goods establishment. S. Roe has also erected a nice ice cream parlor.

E. O. Upthegrove has had much trouble with his gasoline launch but has again got it in good running order.

### Poor Milk

Is often thought to be responsible for an infant's loss in weight or general poor health. The cause usually is that the child has worms. They get the nourishment of the food and the baby starves, actually starves. White's Cream Vermifuge expels the worms and nourishes the child, sure and safe. Price 25 cents. Sold by W. M. Johnson.

### A Weed That Steals Oysters.

A seaweed has invaded the oyster beds of France and carried off 400,000 oysters. It has carried them off bodily, as a thief would do. The minute seeds of this weed float up the English channel in the current of the gulf stream; they settle on oysters in the Breton beds of Morbihan, Quiberon and Belle Isle, and they grow to the size of a duck's egg. They are full of water, but at maturity the water evaporates, and air takes its place. The egg shaped seaweed is then a balloon, and, like a balloon, it lifts its oyster from the bottom and bears it out to sea.

There are many imitations of DeWitt's Carbolicized Witch Hazel Salve—DeWitt's is the original. Be sure you get DeWitt's Carbolicized Witch Hazel Salve when you ask for it. It is good for cuts, burns and bruises, and is especially good for piles. Sold by all druggists.

## S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate net-work of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S. S. S. restores to the thin, acrid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. ## ANNUAL MEMORIAL SERVICE ON SUNDAY

REV. HAY DELIVERS AN INTERESTING SERMON.

Odd Fellows Meet to Pay Their Tribute to the Honored Dead of Their Order.

The annual memorial service of Center Lodge No. 11, I. O. O. F., was held at the First Presbyterian church on Sunday evening, Rev. T. P. Hay delivering the sermon.

All of the members of the local lodge room assembled at the hall and attended the services at the church in a body, and this being a special service of the Odd Fellows the church was well filled.

As is their custom, they met on this occasion to pay their respects to the honored dead, who had departed during the year, and the sermon was a most interesting one, being prepared especially for this occasion.

During the past year the lodge had lost only one member, who had been associated with the order but a very short while, and the full ritual service was not observed on this account.

Dr. Hay's subject was along the lines of "The Good Samaritan" and the brotherhood of man, and he received many high compliments for the manner in which he handled the same.

### IMPROVEMENTS COMMENCED.

Contractors at Work to Finish the University Buildings.

The Eddins Manufacturing Company, who were the successful bidders on the finishings to Buckman and Thomas halls, have commenced operations and will rush the work to completion.

This contract calls for the finishing of the carpenter work, painting and oiling throughout.

In all a force of hands will be employed for a number of weeks to complete the buildings, and by that time some other improvements are likely to be ordered.

### DEATH OF MRS. HAYNESWORTH.

Most Estimable Lady Passes Away After Short Illness.

Our town and community has been greatly shocked by the death on Wednesday afternoon of Mrs. J. E. Haynesworth, wife of one of our most prominent farmers and business men, J. E. Haynesworth.

Mrs. Haynesworth, whose maiden name was Edna Gertrude Spencer, of Buckingham, Va., came to Florida about six years ago as the guest of the family of Rev. W. C. Foster. She accepted a position in the Alachua High School. In this capacity she made many friends, and proved herself to be a teacher of much ability. She was greatly loved by both pupils and patrons, many of whom mourn her departure as that of a devoted friend.

On May 19, 1904, she married Mr. J. E. Haynesworth. The union was a happy one. She proved herself equally faithful and efficient as a wife, home-maker and mother, as she had been as a teacher. God blessed their home with three little boys. Soon after the birth of her last child, about three weeks ago, she was taken with blood poison, which baffled all the efforts of physicians and nurses, and to which she finally succumbed.

Her mother, Mrs. C. A. Spencer, and one of her sisters, Mrs. Lella Pierce, of Virginia, arrived a few days before her death, and were with her during her last days.

She was a consistent member of the Alachua Baptist church, and gave unmistakable evidence of her complete trust in Christ for salvation.

She seemed to have gained a new vision of Christianity on her deathbed. How often has she prayed and sang and repeated the precious promises of God's word; and expressed herself time and again as being fully resigned to God's will, and as having made a full surrender of herself to the Lord Jesus Christ. She spoke of death as being a welcome visitor, regretting only the separation from her family, especially the dear little ones that God had given her.

She was fully aware of her condition, talked freely of all her past life, speaking at length of all her mistakes and shortcomings, even mentioning by name and sending messages of love to all with whom she had been on unfriendly terms during the past. Having made, as far as it was in her power to do so, her full peace with God and man, she quietly passed away, dying as triumphant a death as was ever witnessed by the many friends who stood around her bedside.

The funeral services were conducted from the residence of the deceased at 2 o'clock yesterday afternoon by her pastor, Rev. W. C. Foster, and her earthly remains were immediately placed in the cemetery at Newnansville.

We would like to speak words of more comfort to the heartbroken mother and sister who were present when the end came, and to the other members of the family who are far away, and to the dear little children, who, in their innocence, cannot realize their loss; and also to her host of friends who mourn her departure; but we know that at a time like this words fail to soothe the aching heart. All we can do is to point their eyes to the Great Physician, who has promised to comfort and console His people, who will be with them in the sixth trouble, and in the seventh will not forsake.—Alachua News, 11th.

## MARSHAL ARNOW HAS BIG CROWD MONDAY

TAKES A TURN ON NEGRO DIVES NEAR SEABOARD DEPOT.

Evidence Heard Before Mayor Davis Monday, Who Took Cases Under Advisement Until Friday.

Marshal Arnow and his assistant, Policeman Owens, rounded up quite a number of offenders on Saturday night, also taking a shot at the dives that infest the neighborhood near the Seaboard depot.

Mattie Clark, Clyde Boyd, Willie Cunningham, Nettie Hicks, John Smith, Buster Green and Steekert Murray were among the number pulled charged with disorderly houses, and the Mayor has taken the cases under advisement to render his decision next Friday.

Gus Hart, a white man charged with disorderly conduct, forfeited a cash bond of \$10.

Chas. Hill, drunk, forfeited a cash bond of \$10.

Ben Williams, charged with disorderly conduct, was discharged.

Marshal Arnow states that considerable complaint has been made to him lately concerning the negro houses that are allowed to run in all sections of the city, and he will from this time on endeavor to enforce the law as nearly as it is possible to do, arresting offenders in every instance where he can secure sufficient evidence of their purpose.

Bartow Clark was fined \$10 for whipping his child unmercifully. It seems he has a grown daughter who is about half witted and he had applied the whip in an unmerciful manner.

## YESTERDAY'S RESULTS IN SOUTH ATLANTIC

The scores in the South Atlantic League yesterday were as follows:

Macon 11, Jacksonville 7.

## BUSY BUSINESS MEN

Science Helps Them Out After Recklessly Abusing the Stomach.

The most reckless man in regard to health is the busy business man. At noon he rushes out for a bite to eat. He bolts his food without proper mastication, and heaps on his stomach an extra burden greater than it is able to carry without breaking down.

His overworked stomach is crying for help; it appeals to him for relief in various ways: Expulsion of sour gas; waterbrash; sour taste in mouth; heaviness after eating; shortness of breath; bad breath, etc.

One Mi-o-na tablet taken with or after each meal will help any sufferer from dyspepsia wonderfully. It aids the stomach in the work of digestion which it must perform.

Mi-o-na tablets are sold by J. W. McCollum & Co. at 50 cents a large box, with a rigid guarantee to cure dyspepsia and all stomach troubles, or money back. They make eating a pleasure.

Mi-o-na cleanses and purifies the stomach and bowels and puts vigor and strength into the overworked tissues. It is the surest stomach tonic in the world.

Mi-o-na is sold by leading druggists everywhere.

## THE NEW PENSION LAW.

The act passed at the recent session of the Legislature granting pensions to Confederate soldiers, sailors and their widows is published today for the information of those interested. This law was drafted by a committee composed of four old veterans who were in the service from the beginning to the close of the war and one member who was too young to participate in the war. The committee was composed of Senators D. H. Baker, McLeod, Hosford, Broome and Humphries. Senator Broome, however, refused to act with the committee and opposed any change of the law of 1897. The committee gave the matter careful consideration and made the measure as liberal as it was possible to make it, in their opinion, and provide for those who are actually in need of aid from the State. Under the old law the pension list was growing so rapidly that by the end of the year the revenue derived from the pension tax of four mills would not have provided more than about one-half the sum granted to pensioners. This would indeed have been a hardship upon the old and needy veterans and their widows, those who are well provided with worldly goods sharing equally with the needy in the distribution of the pension fund. It therefore became absolutely necessary to insert a property qualification in the law, so as to care for the needy. No one can gain say that this property qualification is not a liberal one, and we dare say that one of the needy would refuse to swap positions with the one possessing five thousand dollars worth of property. Florida is nearly twice as liberal in granting pensions as any other Southern State, and when the home guards were included among the pensioners the burden was rapidly becoming more than the State could possibly bear. The First Florida Reserves are still entitled to pensions under the new law, and those entitled to the provisions of the act are not required to make new proof. Pensions will be paid under the old law for the quarter ending June 30, 1909, the deficiency in the funds for this quarter having been made up by transferring sixty thousand dollars from the State Board of Health fund to the pension fund.

Following is the new law as approved by the Governor:

### Chapter 5885—(No. 16.)

"An Act Creating a State Board of Pensions; Defining Who Shall Receive Pensions; Who Shall Not Receive Pensions; How Applications Shall be Made; How Pensions Shall be Paid; Duty of County Commissioners in Regard to Pensions; Providing for the Levy of a Pension Tax and Authorizing the State Board of Pensions to Make Regulations to Carry Into Effect the Provisions of This Act.

"Be It Enacted by the Legislature of the State of Florida:

"Section 1. That the Governor, Comptroller and the Treasurer of this State are hereby constituted the State Board of Pensions.

"Sec. 2. Any person who enlisted and served in the military or naval service of the Confederate States during the war between the States of the United States, and did not de-

sert the Confederate service, and who performed service in actual line of duty for a period of not less than one year, or who was in actual service at the time of the close of said war, unless incapacitated for such duty by reason of wounds received or disease contracted while in line of duty, and whose property valuation, both real and personal (including the property of his wife), does not exceed the sum of five thousand dollars, and who was a bona fide citizen of this State continuously since 1895, shall each receive one hundred dollars per annum, in quarterly payments; all such persons who lost a limb or limbs, an eye or eyes, or who is permanently disabled by reason of wounds or disease to gain a livelihood by manual labor, shall be entitled to receive each per annum, in quarterly payments, the following amounts, to-wit: For total loss of sight.....\$150.00 For loss of one eye.....125.00 For loss of a foot or leg.....125.00 For loss of a hand.....125.00 For loss of both hands.....150.00 For loss of both feet.....150.00 For loss of one hand and one foot of same person.....150.00 For personal injuries, disease or age, whereby the person is unable to earn a livelihood by manual labor.....120.00 For total disability, as shown by affidavit of two reputable physicians.....150.00

"Provided, However, That no soldier, sailor or their widows, who were on the pension roll and drawing a pension prior to January 1, 1907, and have not since that time been stricken from said roll for valid reasons, shall be required to make other and further proof if eligible under the provisions of this Act. That the provisions of this Act shall apply to all those who were members of the First Florida Reserves, which was in the service of the State of Florida during the war between the States of the United States.

"Sec. 3. The widow of any deceased soldier or sailor who enlisted and served in the military or naval service of the Confederate States during the war between the States of the United States, and did not desert the Confederate service, and who performed service in actual line of duty for a period of not less than one year, unless incapacitated for such duty by reason of death, wounds received or disease contracted while in actual line of duty, and who has not married since the death of said soldier, and whose property, both real and personal, does not exceed the sum of five thousand dollars, shall be entitled to receive the sum of one hundred and twenty dollars per annum, in quarterly payments; provided, such widow was married to said soldier or sailor prior to 1895, and has continuously resided in this State since 1895; and also the widow of any deceased person who was at the time of his death drawing a pension from the State under the provisions of this Act, shall be granted a widow's pension upon satisfactory proof of her marriage, her residence in this State, and the death of her husband, and the pension so granted shall date from the death of the widow's husband; provided, she file her application within ninety days after the death of her husband; provided, such widow is otherwise eligible under the provisions of this Act; provided further, that any such widow shall not be required to make out the proof of her husband's service, but any such widow of any such deceased soldier or sailor who would have been entitled to a pension under this Act shall make proof if her said husband shall not already

have been upon the pension roll at the time of his death.

"Sec. 4. No person receiving a pension from any other State shall be entitled to a pension under this Act.

"Sec. 5. The payment of all allowed claims shall be made from the date of the filing of the application in the Pension Department. Any person who drew a pension from the State of Florida at the time of the passage of this Act, and who is entitled to a pension under this Act, shall not be required to make new proof, and shall be paid from the passage of this Act. Payment shall not continue to pensioners during absence from this State of longer duration than twelve months.

"Sec. 6. No person who was discharged on account of being under age, or for disability, but who did not re-enlist upon removal of the said disability, or upon becoming of the required military age of eighteen years before the termination of the war, shall be entitled to a pension under this Act.

"Applicants for pensions under this Act shall make oath before an officer authorized to administer oaths and use the seal, stating the company and regiment in or ship upon which he enlisted and served, the date of his enlistment, the date and cause of discharge, his citizenship and rights to the benefit of this Act. He shall furnish the affidavits of a commissioned officer under whom, or the affidavits of two comrades with whom he served, or the transcript from the muster rolls from the Adjutant General's Office at Washington, to establish the service claimed.

"Sec. 7. The Board of County Commissioners of the county in which the applicant resides shall investigate all claims made under this Act, and report upon the application whether or not the pension applied for should be granted.

"Sec. 8. The State Board of Pensions shall furnish annually, suitable blanks for making such reports and shall file application for pensions immediately on receipt of same.

"Sec. 9. All sums required for the payment of pensions to applicants under the provisions of this Act shall be paid by warrants drawn by the Comptroller on the Treasurer of the State in favor of the applicant for the sum, to which he or she may be entitled, out of any moneys in the State Treasury raised by special levy for the payment of pensions as provided in this Act.

"Sec. 10. The County Commissioners of each county shall, at least once in each year, examine the pension rolls of their respective counties and

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. ## THE NEW PENSION LAW.

(Continued from Page Four.)

ascertain whether or not any person on said pension roll should be dropped from same by reason of not being entitled to draw pension under the provisions of this Act, and make report of their findings to the State Board of Pensions, who are hereby authorized to drop such pensioners from the list if, in their judgment, the same should be done.

"Sec. 11. The State Board of Pensions shall forward to each pensioner a certificate that he is entitled to draw a pension, which shall be prima facie evidence to the Clerk of the Circuit Court or any other officer of the county.

"Sec. 12. There shall, annually, be assessed and collected a tax of four mills per dollar on all property liable to assessments, which shall constitute a fund for the payment of pensioners, the proceeds of which shall be applied to the payment of pensions.

"Sec. 13. That from and after the passage of this act it shall be lawful for pensioners of this State to have their vouchers approved and signed by either Clerks of the Circuit Court or by Notary Public, or any other officer authorized by law to administer oaths, having a seal.

"Sec. 14. The State Board of Pensions shall prescribe rules and regulations for the carrying out of the provisions of the pension laws of this State; see that the laws are complied with, and shall make reports and recommendations to the Governor at least thirty days before the meeting of the Legislature. Said Board shall make rules and regulations for the conduct of their business as they may deem proper, not in conflict with the spirit and purpose of the pension laws. They may employ a clerk at a salary not exceeding five hundred dollars per annum, payable quarterly out of the State Treasury on the certificate of the Chairman of said Board.

"Sec. 15. The State Board of Pensions shall, by the first day of July, A. D. 1909, or as soon thereafter as practicable, make up and certify to the several Boards of County Commissioners of the several counties of the State a complete and detailed list of all persons who may be residents of the said several respective counties, and who are now drawing a pension from this State, and also all persons who have filed their applications for such pensions and which have not

## The Secret of Prize Winning Pastry.

Fourteen prizes (nearly all of them firsts) out of fifteen entries of cakes and fine pastry is a record that any woman might envy. This was the showing made recently by Mrs. J. H. Chastain, 299 S. Boulevard, Atlanta, Ga., at the Georgia State Fair. Her explanation of her success is decidedly interesting; she writes—

"I entered nine cakes and six pies at the Georgia State Fair, Atlanta, Ga.—won eight first premiums on cake, three first premiums and two seconds on pies, also first premium on general display. I attribute my success in cake making altogether to using COTTOLENE and not butter."

Mrs. Chastain is the wife of the Master Mechanic of the Western & Atlantic R.R., and enjoys a high local reputation for her fine cooking. Not only does she use COTTOLENE in making cakes or crusts, and other pastry; but for frying chicken, fish, etc., she finds it unequalled. For over nine years she has not had a pound of lard in her house, using COTTOLENE exclusively.

been acted upon and are pending before said Board, and it shall be the duty of the said several Boards of County Commissioners, on receipt of said list or as soon thereafter as practicable, to make careful investigation of said list and make up and certify to the State Board of Pensions a list of all such persons who, in their opinion, are entitled to receive a pension under the provisions of this Act.

"Sec. 16. That all laws and parts of laws in conflict with the provisions of this Act be, and the same are hereby repealed.

"Sec. 17. This Act shall take effect on July 1, 1909.

"Approved June 7, 1909."

## The Changes.

The only change of importance of the old law and the present act is to be found in section 2. The latter section of the act of 1907 reads as follows:

"Section 2. Any person who enlisted and served in the military or naval service of the Confederate States or of this State, including home guards and reserves, during the war between the States of the United States, and did not desert the Confederate or State service, and who was a bona fide citizen of this State continuously for ten years prior to date and filing of the application for pension, and who is over sixty years of age at the date of application, shall each receive one hundred dollars per annum in quarterly payments; etc."

In all other respects this section is the same as the new law.

Applicants for pensions can now make proof of service by furnishing a transcript from the muster rolls from the Adjutant General's office at Washington. This will enable some deserving veterans to make proof who could not otherwise do so, there being no survivor of their command.

## HE SPREAD OUT.

Advice the Roofer Got From His Boss In Apprentices Days.

The man was working on the side of a steeply sloping roof. All of a sudden his foot slipped, and, with a groan, he began to slide down slowly toward the edge.

As he slid he clutched with tense fingers at the tin, but it was smooth. It offered him no hold, and his speed gradually but surely increased.

As in a sitting posture, like a tobogganer, the man continued his deadly slide he began to pray in a loud, anguished voice.

Memory, as if in answer to his prayer, flashed across his brain the words: "Spread out."

The man instantly lay flat on his back, spreading arms and legs to their widest angle, making himself as much as possible like a starfish. And his speed at once decreased. The additional friction surface acted like a brake. A few feet from the edge of the roof he came to anchor.

"Help!" he then shouted.

But the slight movement of shouting acted like a push, and he slipped down a few inches more.

"Help!" And again he slid a little.

But this time help came. A rope was thrown, and the man climbed back to safety.

He wiped the dew of terror from his brow.

"My boss in my apprentices days," he said, "told me if I ever started sliding down a roof slope to spread out and it would stop me. I didn't believe him; but, by jingo, he was right."

The man smiled and sighed, musing on his long dead boss. Then he crawled back to his dangerous work on the steep slope of the roof.—Philadelphia Bulletin.

## A LOST ART.

Secret of the Tools Used by the Incas and the Aztecs.

What was the combination of metals from which the Egyptians, Aztecs and the Incas of Peru manufactured their tools and arms? Though each of these nations reached a high state of civilization, none of them ever discovered iron in spite of the fact that the soil of all three countries was largely impregnated with it. But they substituted for it a combination of metals that had the temper of steel, and the secret of the combination is lost to mankind.

Humboldt tried to discover the lost art by analyzing a chisel found in an ancient Inca silver mine, but all he could make of it was that it appeared to be a combination of a small portion of tin with copper. No present known way of combining these two metals will give the hardness of steel, so there must have been something else in the chisel which Humboldt missed.

And these ancient races were able to prepare pure copper so that it equaled the temper of the finest steel produced at the present day by the most scientific process. With their bronze and copper instruments they were able to quarry and shape the hardest stone, such as granite and porphyry, and even cut emeralds. The ancient peoples must have independently discovered the art of tempering copper, and yet it is a secret that baffles modern scientists of the whole civilized world.—New York Times.

## Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

We knew what Kodol would do before ever the first bottle was sold. If we did not know just what it will do, we would not guarantee it the way we do.

It is easy for you to prove Kodol—the next (or the first) time you have an attack of indigestion. And you will certainly be surprised at the results. It is perfectly harmless.

There can be no harm in trying something that may do you a great deal of good—when it costs you nothing if it doesn't.

## Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

## The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

## "That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

## WORSHIP THE SHARKS

South Sea Islanders Fear Them  
as the Abode of Ghosts.

HOLD SOULS OF THEIR DEAD.

The Natives Offer Gifts and Food,  
Sometimes Human, to Appease the  
Man Eaters—The Hawaiians Used to  
Feed Their Dead to the Monsters.

In view of the wide distribution of sharks and their strength and ferocity, qualities which appealed to the savage mind, it is not strange that the cult of shark worship should have arisen. This worship is especially common in the south seas, where sharks are very numerous, says the Detroit Free Press.

In the Solomon Islands living sacred objects are chiefly sharks, alligators, snakes, etc. Sharks are in all these islands very often thought to be the abode of ghosts, as natives will at times before their death announce that they will appear as sharks. Afterward any shark remarkable for size or color which is observed to haunt a certain shore or rock is taken to be some one's ghost, and the name of the deceased is given to it.

Such a one was Sautahimatawa at Ulawa, a dreaded man eater, to which offerings of porpoise teeth were made. At Saa certain food, such as coconuts from certain trees, is reserved to feed such a ghost shark, and there are certain men of whom it is known that after death they will be in sharks. These, therefore, are allowed to eat such food in the sacred place. In Saa and Ulawa if a sacred shark had attempted to seize a man and he had escaped the people would be so much afraid of the shark's anger that they would throw the man back in the sea to be drowned. These sharks also were thought to aid in catching the bonito, for taking which supernatural power was necessary.

In the Banks Islands a shark may be a tangaroa, a sort of familiar spirit or the abode of one. Some years ago Manarwar, son of Mala, the chief man in Vanna Lava, had such a shark. He had given money to a Manwo man to send it to him. It was very tame and would come up to him when he went down to the beach at Nawono and follow along in the surf as he walked along the shore. In the New Hebrides some men have the power, the natives believe, of changing themselves into sharks.

The Samoan native believed that his gods appeared in some visible incarnation, and the particular thing in which it was in the habit of appearing was to him an object of veneration. Many worshiped the shark in this way, and while they would freely partake of the gods of others they felt that death would be the penalty should they eat their own god. The god was supposed to avenge the insult by taking up his abode in the offender's body and causing to generate there the very thing which he had eaten until it produced death. In one village Taema, the war god, was present in a bundle of shark's teeth. These curiosities were done up in a piece of native cloth and consulted before going to battle. If the bundle felt heavy that was a bad omen, but if light the sign was good, and off they went to the fight.

In the Fiji Islands, Vivas and other gods claim the shark as their abode, and their devotees must never eat of that fish, for if they did they would be partaking of the god himself.

It was in the Hawaiian Islands, however, that shark worship reached its greatest perfection. Its worship was quite common on the islands, each one having a special shark as his ancestral god. The worship of sharks was due largely to the fact that the belief in the transmigration of souls is quite

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys must, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

general among the Polynesians, and the Hawaiians would feed their dead to the sharks under the supposition that in this way the soul of the dead would enter the sharks and so animate the latter as to incline them to respect the bodies of the living.

Several of the African coast tribes worship the shark. Three or four times in the year they celebrate the festival of the shark, which is done in this wise: They all row out in their boats to the middle of the river, where they invoke, with the strangest ceremonies, the protection of the great shark. They offer to him poultry and goats in order to satisfy his sacred appetite. But this is nothing. An infant is every year sacrificed to the monster, which has been feted and nourished for the sacrifice from its birth to the age of ten. On the day of the fete it is bound to a post on a sandy point at low water. As the tide rises the child may utter cries of terror, but they are of no avail, as it is abandoned to the waves, and the sharks soon arrive to finish its agony and thus permit it to enter into heaven.

The Polynesians have an ancient fable treating of the flight of Ina, the daughter of Vaitoringa and Ngaetua, to the sacred isle. After the sole dumped her at the edge of the breakers with such disastrous results to itself from the angry princess the latter summoned the shark and by its help succeeded in reaching the sacred island. Feeling thirsty during the voyage, Ina cracked a coconut on the shark's forehead, and this accounts for the bump now found on the forehead of all sharks.

## ARTICLES OF INCORPORATION OF KRAFT PAPER COMPANY. NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT.

Notice is hereby given that the undersigned intend to apply to the Governor of the State of Florida, at Tallahassee, Florida, for Letters Patent incorporating Kraft Paper Company under the laws of the State of Florida with and under the following proposed charter, the original of which is now on file in the office of the Secretary of the State of Florida.

B. F. WILLIAMSON,  
FRANK H. CHASE,  
C. D. DENNIS.

### Proposed Charter of Kraft Paper Company.

The undersigned hereby associate themselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws of the State of Florida, with and under the following proposed charter:

Article I—The name of this corporation shall be KRAFT PAPER COMPANY, and its principal place of business shall be Gainesville, Alachua county, Florida. That said company may have such branch offices and other places of business in the State of Florida and in other States and in foreign countries as said corporation shall desire.

Article II—The general nature of the business to be transacted by said corporation shall be the making and manufacturing of pulp and paper and other products from pine and other woods, or other raw materials, and the owning, constructing, operating and maintaining manufacturing plants, and the buying, leasing, acquiring, marketing, selling, conveying and disposing of such pulp and paper and other products and goods manufactured from pine and other woods, and also woods, materials and all kinds of products of pulp, paper and similar materials and supplies, and the business of buying, selling and dealing in pulp, paper and other manufactured products from pine and other wood, and like materials, goods and chattels and other property and appurtenances and rights, licenses and privileges pertaining to any and all of the above-mentioned business. And for the purpose aforesaid, to buy, sell, hold, mortgage and lease property, real and personal. To receive payment for capital stock in this company in money or in property, labor or services, at a just valuation thereof to be fixed by the stockholders or Board of Directors. To borrow money and secure the same and moneys otherwise owing by it by mortgages, deeds, bonds, notes or other obligations therefor. To make contracts, of any kind whatsoever, for the furtherance of its purposes and businesses, including agreements or contracts between the said corporation and individuals or other corporations. Also to acquire, own, lease, sell and dispose of all property, real and personal, of every nature and description that may be necessary or proper to the conduct of said business or businesses. To buy, sell, pledge, own or acquire stock or stocks in this or any other corporation, and to do any and all things necessary and proper in and incident to the business or businesses aforesaid, or any of them, and to act as brokers and agents in the conduct of like business for others, and to exercise all rights, powers or privileges now or hereafter conferred by law upon corporations organized under the provisions of the law of the State of Florida, authorizing the formation of this corporation.

Article III—The amount of capital stock of this corporation shall be Two Million Five Hundred Thousand Dollars (\$2,500,000), divided into shares of One Hundred Dollars (\$100.00) each. All or any of said capital stock of said corporation may be payable in or issued or used for the purpose of property, labor or services at a just valuation thereof, to be fixed by the incorporators or by the Board of Directors at a meeting called for that purpose.

Article IV—The term for which said corporation shall exist shall be ninety-nine (99) years.

Article V—The officers of said corporation shall be a President, a Vice-President, a Secretary and Treasurer, to be elected by the Board of Directors, and a board of not less than three (3) Directors to be elected by the stockholders. The same person may hold the office of Secretary and Treasurer. Any of the above-named officers may also be elected General Manager by the said Board of Directors.

The officers of the said corporation who shall conduct the business of the corporation until those who shall be elected at the first election shall be qualified are Bailey F. Williamson, President; Frank H. Chase, Vice-President; C. D. Dennis, Secretary and Treasurer, and Bailey F. Williamson, Frank H. Chase and C. D. Dennis as Directors.

Such officers and directors shall be elected on the first Tuesday in February in each year.

Article VI—The highest amount of indebtedness or liability to which said corporation can at any time subject itself is Two Million Dollars (\$2,000,000.)

Article VII—The said corporation shall adopt a corporate seal, and may adopt by-laws for the government of its affairs not inconsistent with its articles of incorporation or the laws of

the State of Florida, and the said by-laws may be amended or repealed and others adopted from time to time as may be provided in said by-laws.

Article VIII—The names and residences of the incorporators of said corporation and its subscribers to stock thereof, with the number of shares of its capital stock subscribed for by each, are as follows:  
B. F. Williamson, Gainesville, Fla., 3,000 shares.  
Frank H. Chase, Chicago, Ill., 2,100 shares.  
C. D. Dennis, Gainesville, Fla., 10 shares.

(State of Florida.)  
County of Alachua.)  
Personally appeared before me B. F. Williamson, Frank H. Chase and C. D. Dennis, to me well-known as the persons who executed the foregoing Articles of Incorporation of the Kraft Paper Company, and who each severally and duly acknowledged that he executed the same for the purposes therein expressed.

In Witness Whereof, I have hereunto set my hand and official seal this 5th day of May, A. D. 1909.  
HARVEY P. ROBINSON,  
Notary Public State of Florida at large. My commission expires May 18, 1909.

Note: On account of there being another paper house in the State using the name of Florida Paper Company the Secretary of State ordered a change in our name. We have therefore changed the name from Florida Paper Company to Kraft Paper Company and will ask for Letters Patent under above-mentioned name.

## GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Faine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what
